## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Line 16 (last line) of claim 1 recites "it". It is not clear what does "it" in claim 1 actually represent for.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Hensler-DE3802907.

As to claims 1-2, Hensler-'907 (Figs. 1-4) discloses hollow shaft assembly (5,6,7,10) having gripping members 2 & 1, jaw members 8 & 7, push pin assembly (13,15) and rigid casing 12 as recited in the claims.

As to claim 3, Fig. 3 shows push pin 13 having a height substantially corresponding to the diameter of rigid casing 12.

Art Unit: 3734

As to claims 3-5, Hensler-'907 discloses a pressure surface/driving element 19 on gripping member 2 for contacting a contact surface/recess 18 on push pin assembly (13, 15) as recited in the claims.

As to claim 6, at least push pin 13 can be removed from shaft 5 as a unit.
